

RAJAT SHOBHANGINI KAMLESH

Vadodara, India | +91 9644523913 | shobhanginirajat27@gmail.com | LinkedIn: <https://www.linkedin.com/in/gecdhd-comp-shobhangini-rajat/>

SUMMARY

Computer Engineering student with strong foundation in programming, web development, AI and machine learning. Built real-world projects including heart disease prediction and deepfake detection systems. Interested in Software Engineering and Web Development roles, with a focus on applying problem-solving and technical skills.

WORK EXPERIENCE

Web Development Intern — Weltech (Python) (Jan 2026 – Mar 2026)

- Completed 3-month internship in web development using Python
- Developed Deepfake Video Detection System AI-based
- Applied machine learning techniques for detecting manipulated videos
- Worked on backend logic and basic web integration
- Gained hands-on experience in real-world project development

AI Intern — IBM SkillBuild (June 2025 – July 2025)

- Built a machine learning model for heart disease prediction using Python
- Worked with real-world datasets and performed data preprocessing
- Applied data analysis and visualization techniques
- Collaborated in a team for testing, documentation, and implementation

Projects

Deepfake Video Detection System (Python, AI, ML, Web)

- Developed an AI-based system for detecting manipulated (deepfake) video content
- Implemented machine learning techniques for video and frame-level analysis
- Designed backend processing logic using Python for efficient detection
- Addressed real-world challenges in media authenticity and digital security

Heart Disease Prediction System (Python, Machine Learning)

- Developed a machine learning model to predict heart disease risk using classification algorithms
- Performed data preprocessing, cleaning, and feature selection on healthcare dataset
- Trained and evaluated the model to achieve reliable prediction accuracy
- Visualized data patterns and model results using Python libraries for better insights

EDUCATION

GOVERNMENT ENGINEERING COLLEGE, DAHOD (2021 – 2026)

B.E. / B.Tech – Computer Engineering
CGPA: 6.19

Higher Secondary 2021

52.5%

Secondary 2019

78.76%

SKILLS

- Languages: C, C++, basic Java, Python
- Web: HTML, CSS, Tailwind CSS
- Tools: Excel, PowerPoint
- Concepts: DBMS, Basic Data Analysis
- Soft Skills: Problem Solving, Teamwork, Communication.
